

Tulipiippu LiteFire-22/30 measurement 1st of Nov. 2011

Time: 1.11.2011
Fireplace: 1100kg
Fuel: 5-6 kg pellets
Measurement tool: Testo
Burning time: 13.30 – 16.00

Measurements were from a fireplace of 1100 kg. Combustion started in 10 minutes.
Combustion ranges:

Temperature for combustion gases:	155	155	180 degrees
Oxygen	15	15	13 %
Co	127	150	340 ppm
Operating efficiency	82	83	84 %

The test was very successful and burning was visually very nice.
